Dear Mr. Baker:

Further to our discussion this morning, we would like to request a meeting with the Nation and representatives from the municipalities affected by the billboard project. We would like explore various options around the implementation of the project. Below are some of our initial thoughts:

1. relocation and /or phasing in of certain signs.
2. addition of community messaging (ie. Use of advertising space for community purposes, amber alert component etc.)

We look forward to hearing back from you at your earliest convenience. Thank you in advance for your cooperation.

Yours Truly,

Blair Murdoch  
President
